Use your measurements to choose one of our **standard** sizes, based on your largest measurement. Also provide your normal dress size worn. Alterations may be necessary. If you can't make it in to one of our retailers, we recommend that a professional tailor or seamstress take your measurements.

Do not pull measuring tape too tightly!! Give us the exact measurements - you don't need to "pad" the numbers. Have them measure three times to be sure!!

BUST - **fullest** part of bust (NOT bra size or ribcage)

WAIST - **narrowest** part of waist (about 1" above belly button)

HIP - **fullest** part of hips

***NOTE: If you are ordering a tulip skirt, A-line skirt tea length, or a pleated skirt please remember that there is a little wiggle room in the hips. There is 2" or 3" extra room in these skirt styles in the hip area. The above size chart is for the straight skirt, kick pleated skirt, A-line knee skirt and bubble skirt. If you have any questions, please don't hesitate to contact us.

Sizes 20+ carries a surcharge.

Extra length available with surcharge.

Petite sizes available with surcharge.
